

Our Jobs are Under Attack

The politicians in Trenton are at it again.

They are considering a bill, S2206, that would allow management in state and local government to furlough workers **ANY TIME THEY WANT TO.**

- **With no input from your union.**
- **With no ability to bargain.**

This would make bargaining over wages meaningless. Why bargain a wage if management can just furlough workers and pay them nothing whenever they feel like they need more money? What good is a salary if management can just pay you less through furloughs?

CALL YOUR LEGISLATORS

on Wednesday, July 21 and tell them:

My name is [SAY YOUR NAME] and I live in [SAY THE NAME OF THE TOWN YOU LIVE IN]. I am urging you to oppose S2206, which would allow local politicians to cut my wages any time they feel like it and destroy the ability of my union to negotiate a living wage. I expect you to work with my union to find ways to make New Jersey better, not govern with sound-byte politics that won't solve the problem.
