

When They Attack ME and my UNION...

Some of our elected officials in Trenton are using state workers as scapegoats, blaming state workers for the current state of the state budget. Some are planning to attack our jobs, our pensions, our wages, and even our right to join a union.

I'll be there!

To fight back

And here's what I'm willing to do! (check all that apply)

- If the legislature tries to dismantle the pension system, I'm ready to walk
- I'll picket my work site
- I'll attend town hall meetings in my area with my legislators
- I'll attend lobby sessions in Trenton to talk to my legislators
- I'll come to rallies at the statehouse in Trenton
- I'll write a letter to the editor of a newspaper in my area
- I'll call my legislators and tell them where we stand on the issues
- I'll wear red on Thursdays to protect my pension
- Send me email updates about what's going on at the address below
- Send me text messages about what's going on at the number below
- This is too important. Sign me up for everything!

YES! I want to get involved to protect my job, wages, pension and benefits!
