

***Take a stand against corporate greed!***

# **Don't Shop @ Verizon Wireless!**

**Verizon Executive Ivan Seidenberg makes \$55,000 a day, 365 days a year. While he rakes in the dough, he wants to slash the wages and benefits of his workers.**

This company is making record profits. Yet while the top brass at Verizon Wireless grab more and more for themselves, their employees are struggling while their health care benefits deteriorate each year.

**It's time customers and workers at Verizon Wireless join together and say, "Enough."**

## **Stand With Workers, Not With CEOs**

Corporate Greed has gotten out of control in America. The rich are getting richer, and demanding we give them even more.

**It's time to send them a message.**

Stand with your fellow working Americans.

**Please don't cross our picket line!**
